

## Hugs 6.0 care-centered software

The new Hugs 6.0 software turns the focus on what matters most: the infants in your care.

### Work better

The Hugs software has been totally redesigned to make it easier for you and your staff to get the job done.

- **Clinically focused:** you see the focus of your care—your patients.
- **Task oriented:** select the patient, select a task icon, and then just follow the on-screen instructions.
- **Event driven:** you only see alarms or events when your attention is needed.
- **Powerful reports:** you have complete information on everything that's happening in the system right at your fingertips.

### Key features

- ① **Large census window**  
See all the infants in your care at a glance.
- ② **Toolbar icons**  
Execute the most common tasks with a single click.
- ③ **Customizable view**  
Add, remove or rearrange columns in the census window.
- ④ **Alarms-Events tab**  
Alarms are automatically displayed when they occur, giving you the information you need to respond.
- ⑤ **Admin tab**  
Nurse administrator functions are all grouped in a single location.
- ⑥ **Reports tab**  
Run standard reports on all aspects of system activity, or create your own reports.
