

SOLUTION OVERVIEW

SpaceTRAX[®] Plus Secured Access Cabinet

Optimize inventory, increase charge capture, and automate chain of custody

SpaceTRAX[®]

Solution Benefits

- **Secures critical equipment** and materials
- **Provides controlled access** to high value inventory items
- **Manages users** and access passes remotely
- **Integrates seamlessly with SpaceTRAX** to provide visibility into inventory

Perfect for Use In:

- **Hospitals/Clinics**
 - Cardiac Cath Lab (CCL)
 - Electrophysiology (EP)
 - Interventional Radiology (IR)
 - Gastrointestinal/Endoscopy (GI/Endo)
 - Operating Rooms (OR)
- **Research Labs**
- **Stockrooms**

Challenges

Every day, healthcare organizations manage inventories of high dollar equipment and valuable supplies. These assets need to be maintained, monitored and tracked, and available when needed to support patient care. Relying on manual inventory management is time consuming, inefficient and error prone.

Solution

STANLEY Healthcare has a solution: SpaceTRAX Plus Secured Access Cabinet. SpaceTRAX is a real-time point-of-use inventory management solution that seamlessly links clinical supplies to physicians, patients and procedures. SpaceTRAX Plus Secured Access Cabinet is the perfect solution for storing high value consumables and supplies to prevent unauthorized removal, while maintaining access control to the unit.

How It Works

SpaceTRAX uses manufacturer's barcodes to capture all key data: each item's part number, description, expiration date, as well as lot and serial numbers.

With SpaceTRAX Plus Secured Access Cabinet, you have 25 cubic feet of configurable storage space, and stocking and accessing supplies in the Cabinet is made easy.

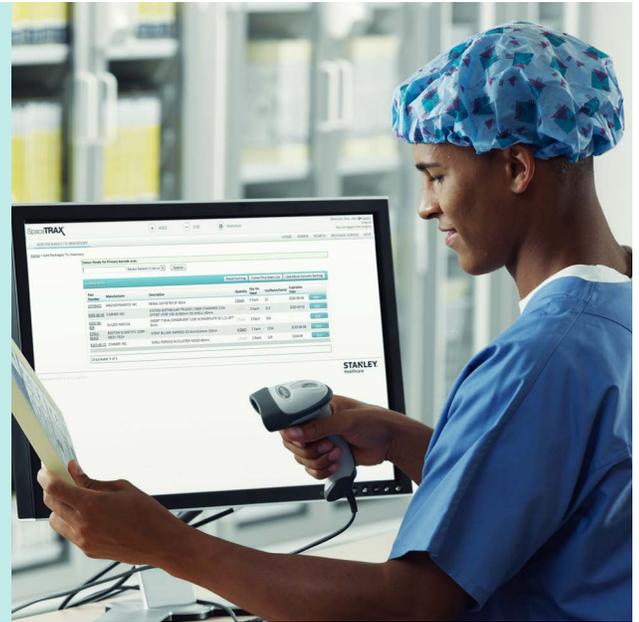

Unlike traditional locked cabinets, the Secured Access Cabinet has smart technology that allows you to integrate it with SpaceTRAX, to assign proximity badges and control a user's access. Access is then logged in a system report for auditing purposes.

The Ideal Solution When Secure Storage is Needed, But RFID Tracking is Not

- Secures high volume, low dollar consumables
- Lowers overall cost
- Reduces administrative overhead required from tagging individual items

Benefits of Integrating Cabinet with SpaceTRAX

- Control who has access
- Track and audit entry into cabinet
- Ensure your inventory is protected from misappropriation

Key Features of SpaceTRAX Plus Secured Access Cabinet

Visibility

Prevent stock-outs by monitoring product expiration dates

Controlled Access

High value materials can only be accessed using proximity badges

Efficiency

Create fast, efficient workflows supported by the SpaceTRAX database of nearly 300,000 items

Interoperability

Integrate with your EMR, billing and other key clinical and administrative systems

Affordability

Pay a predictable monthly service fee that includes 24/7/365 support, updates, maintenance and more

About STANLEY Healthcare

Over 15,000 hospitals and senior living communities rely on STANLEY Healthcare solutions to empower caregivers to deliver better care. STANLEY Healthcare is a part of Stanley Black & Decker and a proud supporter of the Alzheimer's Association®. Learn more at stanleyhealthcare.com.
