

Data Sheet:

STANLEY Healthcare University Online

STANLEY Healthcare has partnered with Healthstream to offer online product education through the Healthstream Learning Center LMS

Overview

We know that STANLEY Healthcare clients have busy schedules. That's why we developed an online university and partnered with Healthstream to offer product training where you want it and when you need it. Take advantage of online training any time of day or night, wherever you have an internet connection. Use it to review product features, refresh your memory, or to help orient new employees.

HealthStream Learning Center™ is well-known as the most adopted learning management system in the healthcare industry. HealthStream Learning Center (HLC) is an easy to use web-based platform for managing online education. HLC simplifies how education is delivered, assigned, and tracked – whether your role is a learner, manager, or learning administrator.

HLC is available to clients with a signed STANLEY Healthcare Maintenance Agreement whether or not your institution is a current Healthstream client.

It is our aim to help educate you and your staff on STANLEY Healthcare solutions that maximize the quality, safety, and efficiency outcomes of your patient care.

STANLEY Healthcare Course Catalog

We are building our online course catalog, so be sure to check it periodically for new courses.

In the meantime, here is an example of STANLEY Healthcare courses currently available online at HLC:

Fundamentals of Condition (Environmental) Monitoring

Estimated Course Length: 34 minutes across 6 lessons

Description: This course introduces learners to the concept of Condition Monitoring, MobileView Events and Alerts, Corrective Actions, report functionality and a variety of Condition Monitoring reports including Temperature Report, Temperature Summary Report, Current Temperature Report, Temperature History Report, Temperature Events Report, and explains how to modify setting and search result display preferences.

RoamAlert System

Estimated Course Length: 36 minutes across 7 lessons

Description: This course introduces learners to how the RoamAlert System works, how to test a tag with the tag reader, how to attach a tag to a resident, how to respond to events and alarms, how to bypass the elevator system and clear alarms, how to remove, clean and store tags, and how to test a protected exit.

Hugs Infant Protection System

Estimated Course Length: 40 minutes across 6 lessons and 1 Summary Assessment

Description: This course introduces learners to the subject of infant abduction and how the STANLEY Healthcare Hugs Infant Protection system helps hospitals strengthen infant security. It describes the Hugs system and the role of the System Administrator. System components – including the Hugs tag and BabySense, the Hugs computer and software, and excitors and receivers – are introduced. Common software procedures are explained as are alarms and alarm response procedures. The Administration and Reports lesson covers the most common administrative activities. The course concludes with a Summary Assessment.

STANLEY Healthcare on HLC

STANLEY Healthcare University content is available now on HLC

- Customers with an existing Healthream account can search for content in the HLC catalog and self-register.
- Non-Healthstream customers will be provided a path to create an account to access the STANLEY Healthcare content on HLC.

Contact SHUniversity@sbdinc.com for assistance accessing STANLEY Healthcare on HLC...and begin learning online today.

About STANLEY Healthcare

STANLEY Healthcare provides over 5,000 acute care hospitals and 12,000 long-term care organizations with enterprise solutions that transform safety, security and operational efficiency. The STANLEY Healthcare EcoSystem enables customers to achieve organizational excellence and superior care in five critical areas: Patient Safety, Security & Protection, Environmental Monitoring, Clinical Operations & Workflow and Supply Chain & Asset Management. These integrated solutions are complemented by consulting, training and Transformational Lean™ process reengineering. STANLEY Healthcare is proud to be part of STANLEY Black & Decker, Inc.
